sharedBoardRole	enumeration	Specify the default board role users will have when shared. One of: <code>none</code> <code>boardReader</code> , <code>boardUser</code> , <code>boardManager</code> <code>boardAdministrator</code>	<code>none</code>
templateId	string	Enter a template id to base the board on a template	
fromBoardId			
includeCards	boolean	Specify <code>true</code> to make copies of the cards from the source board or template	<code>false</code>
includeExistingUsers	boolean	Specify <code>true</code> to use the same users as the source board	<code>false</code>
baseWipOnCardSize	boolean	Specify <code>true</code> to factor in card size	<code>false</code>

Param	Type	Usage	Default
		when calculating work in progress	
<code>excludeCompletedAndArchiveViolations</code>	boolean	Specify <code>true</code> to exclude completed and archive lanes from WIP calculations	<code>false</code>

\* Required

\*\* Not recommended for large organizations. Consider copying from another board or template with the correct users for your team.

## Example Requests

### Default usage

```
{
  "title": "My new board"
}
```

### Creating from a template

```
{
  "title": "Hey I made a board with cards from a template",
  "templateId": "10113986377",
  "includeCards": true
}
```

### From a board with cards, users and other options

```
{
  "title": "Hey I copied this board from another one",
  "description": "This should have cards, custom fields and users from the source board and should exclude wip limits and use card size. Custom field values for all source cards will be copied too!",
  "fromBoardId": "10113285944",
  "includeCards": true,
  "includeExistingUsers": true,
  "excludeCompletedAndArchiveViolations": true,
  "baseWipOnCardSize": true
}
```

## Example Successful Response

200 Success

```
{  
  "id": "10116186847"  
}
```
