

Create parent and child connections

POST /io/card/connections

Connect cards to child or parent cards.

Example Request

Connect a card to a child card

```
{
  "cardIds":[
    "943204705"
  ],
  "connections":{
    "children":[
      "943206826"
    ]
  }
}
```

Connect multiple cards to multiple parents

```
{
  "cardIds":[
    "943206826",
    "943204705"
  ],
  "connections":{
    "parents":[
      "943206946",
      "943207144"
    ]
  }
}
```
