

Create a card

POST /io/card/

Create a card.

Note: copiedFromCardId does not copy the source card's details but will replicate the taskboard and task cards from the source card.

Query Params

Param	Type	Usage	Default
returnFullRecord	boolean	Returns the full card record	false

Example Requests

Minimum Board

Card will be created at the end of the default drop lane with the default card type.

```
{
  "destination": { "boardId": "1234" },
  "title": "The title of the card"
}
```

Minimum Lane

Card will be created at the end of the specified lane with the default card type.

```
{
  "destination": { "laneId": "2345" },
  "title": "The title of the card"
}
```

Minimum Taskboard

Card will be created at the end of the "TODO" lane on the taskboard of the specified card with the default task card

type.

```
{
  "destination": { "cardId": "3456" },
  "title": "The title of the card"
}
```

All fields

```

{
  "destination": { // One of the properties (boardId, laneId, cardId) is required
    "boardId": "1234",
    "laneId": "2345",
    "cardId": "3456",
    "index": 1, // default: -1 (end of lane)
    "laneTitle": "doing" // Used when destination is a card. Options: todo,doing,done; default: todo
  },
  "title": "The title of the card",
  "typeId": "944576314",
  "assignedUserIds": [ "478440842" ],
  "description": "The card description",
  "size": 1,
  "connections": {
    "parents": [ "945202295" ],
    "children": [ "945250930" ]
  },
  "dependencies": [
    {
      "cardId": "945202296",
      "direction": "incoming",
      "timing": "finishToStart" // timing is optional and defaults to finishToStart
    },
    {
      "cardId": "945202297",
      "direction": "outgoing",
      "timing": "startToStart"
    }
  ],

  "customId": "Card header text",
  "externalLink": {
    "label": "The link label",
    "url": "https://www.leankit.com"
  },
  "plannedStart": "2020-01-20",
  "plannedFinish": "2020-02-01",
  "tags": [
    "tagOne",
    "tagTwo"
  ],
  "wipOverrideComment": "The override reason",
  "customFields": [ {
    "fieldId": "945250752",
    "value": "This is the field value"
  } ],
  "planningIncrementIds": [
    "10114179391",
    "10114169190"
  ]
}

```

```
| }
```

Note: boardId, laneId, index properties have been moved into the destination object. For backwards compatibility, when they are provided at the top level, a valid destination is generated.

Example Successful Response

When returnFullRecord is false (default)

201 Created

```
| {  
  "id": "945250932"  
}
```

When returnFullRecord is true

201 Created

```
